

Sanket Dinesh Sawant

Product Designer

Mumbai, India | 9930849920 | sanketdsawant1998@gmail.com | [Portfolio](#) | [LinkedIn](#)

PERSONAL PROFILE

I am a Product Designer with 4+ years of experience designing complex B2B and enterprise SaaS products, focused on simplifying data-heavy workflows, building scalable design systems, and creating intuitive experiences for users in high-stakes, real-world environments. I collaborate closely with product managers and engineers to translate business and technical constraints into clear, usable product experiences, and own problems end-to-end from discovery and user research to interaction design and final delivery.

PROFESSIONAL EXPERIENCE

Genpact | Product Designer **Dec 2024 - Present**

- **SmartShop Core Platform** - Led end-to-end UX for a role-based manufacturing SaaS, simplifying data-heavy workflows to improve real-time visibility, task execution, and decision-making for operators and engineers.
- **SAML & OAuth Redesign** - Redesigned enterprise authentication flows to improve usability while meeting strict security, access control, and compliance requirements.
- **ServiceNow UX Audit & Redesign** - Conducted a heuristic UX audit and defined usability standards for a ServiceNow-based platform, improving navigation, information hierarchy, and form usability within platform constraints.
- **External Applications Integration Framework** - Designed a unified UX framework to integrate 50+ external tools into SmartShop, creating scalable, consistent workflows across pre-, in-, and post-operation phases.

TCS | UX/UI Designer **Apr 2021 - Dec 2024**

- Led UX research and design for enterprise security, AI, and data platforms, including Post-Quantum Cryptography, Confidential Data Masking, and data transformation tools.
 - Conducted user interviews, UX audits, competitive analysis, and usability testing to inform complex workflow design.
 - Translated highly technical concepts (cryptography, privacy, AI, data processing) into intuitive, task-oriented user experiences.
 - Collaborated with data scientists, security experts, product managers, and engineers to deliver scalable, compliant solutions.
 - Designed and iterated wireframes and prototypes to balance security, performance, and usability in multi-module systems.
-

SKILLS AND TOOLS

User-Centered Design, Systems Thinking, Complex Workflow & Information Architecture, Interaction Design & Prototyping, Data-Heavy & Enterprise Application UX, User Research, Journey Mapping & Task Analysis, Problem Framing & Opportunity Identification, Design Systems & Component Libraries, Scalable Interaction Patterns & Design Tokens, Figma, AdobeXD, Accessibility-aware Design (WCAG basics), Agile Sprint-based Product Development, Stakeholder Communication & Design Advocacy, Figma, AdobeXD, Miro, Procreate, Canva

EDUCATION

- Diploma in Ui/UX Design from Edit Institute of Design May 2022 - Nov 2022
- Bachelor of Computer Engineering from Smt. Indira Gandhi College of Engineering July 2016 - Oct 2020
